A Terrific Explosion in a Manimoth

Coal shaft at Scottdale. Only a Few of the Underground Tollers Left to Tell the Tale-Pathetic Scenzs in the

Mine and Out. Bu Telegraph to The Times. SCOTTDALE (Pa.,) Jan. 27.—[By the Associated Press.] By an explosion of fire damp in the mammoth shaft of the H. C. Frick Coke Company today, eighty sturdy miners were ushered into eternity and a number seriously injured. The explosion occurred this morning shortly after 9 o'clock, and it is supposed it was the result of the ignition of fire damp from a miner's oil lamp. The after-damp which followed the fire-damp explosion suffocated nearly every workman. tion, fell to the ground, thereby pretew men, realizing their awful situaventing the gas striking them. The persons not killed are in such a critical condition that their deaths are momentarily expected.

FIFTY BODIES RECOVERED. Up to this writing firty bodies have been recovered, all without a sign of life. The fire, which broke out after the explosion, was soon extinguished by the immense fans which were put in operation. The gas has about all been driven from the pit, and the work of rescuing the entombed miners com-

menced. The mammoth plant embraces 509 ovens, one of the largest plants in the coke region, but it is hard of access. It is situated near the United Works, where an explosion recently destroyed the entire shaft. The affair has cast a gloom over the entire coke region and tonight hundreds of miners are flocking to the scene of the disaster offer-ing assistance.

TO LET—INVING, 220 S. HILL, spread throughout the entire coke region with great rapidity and everybody was awe-stricken. Coffins have already been ordered for eighty persons from Mt. Pleasant undertuzers. No one escaped from the mine in a condition to tell the tale of the awful disaster. It is estimated that there this mammoth calamity. The news

are SIXTY WIVES AND FAMILIES left wholly dependent on the charity of the world for sustenance by this disaster. In fact, they are almost penniless, as the plant has not been running fels, as the part has not been funning full for some time, and work has been exceedingly scarce. Everything possible will be resorted to to supply the widowed mothers and children with the necessities of life. The Fricke Company will act liberally in this direction, and Master Workman Peter Wise has sent an appeal for aid to the miners and an appeal for aid to the miners and

cokers of the region. STORY OF THE DISASTER. This evening a partial story of the disaster was obtained. An unexpected flow of gas was struck and the miners working in the headings conwas referred to the Committee on Resalt killed. It was almost as solid as the coal itself, so terrific was the force of the explosion. This obstruction was removed with difficulty, and they entered the chamer of horrors. The first object they discovered after leaving the main entry was a gum boot; in it was the leg of a man. Further on they found a human head, nowhere in sight was the trunk that had borne it. dead.

Superintendent Keighly was sorely distressed. He had been in two other mine disasters, at Dunbar and Youngstown, but this was far weise. He said: "No man living knows the cause of the accident, and it

NEVER WILL BE KNOWN for a certainty. Not so many were killed by the explosion, but the dreaded after-damp came and the unfortunates succumbed to it. This is shown by the fact that only those bodies in the im-

mediate vicinity of the worst wreckage were mutilated."

One of the foremen connected with the mine said that safety lamps were not used in it. The presence of gas was tot suspected.

John W. Bell, fire boss at Heela No. 1 K, said: "About two years ago there was an explosion of gas at this mine, and one man was burned to death. No safety lamps were used here. THE LAST REPORT of the mine inspector, and it is a very important document just now. The latest examination of the Mammoth Mine by the State Inspector was made on January 6. It shows that at the in-let, which is a slope a mile or more away from the shait, there was 55,080 ouble feet of air entering. The gen-eral condition of the mine was marked

A THEORY FOR THE ACCIDENT. Supt. Lyuch said tonight that he thought it possible that in drawing the ribs or pillars some miner tapped the All the lights were open and the gas. All the fights were open and the gas was an unexpected thing. Every five minutes a corpse is brought to the surface and passed through the line of watchers without comment, save the expression of "another one." It is impossible to obtain a list of the dead, as not even the bosses know just who went down in the morning the morning.

LOSS OF LIFE INCREASING. Ріттявикон, Jan. 28.—12:15 а. т.-At midnight it was stated that 110 men were killed in the explosion. Sixty bodies have been taken out so far. The mine is again on fire and it is feared that all the other bodies will be

ANNUAL MEETING OF THE NA-TIONAL ALLIANCE.

President Powers Gives an Outline of the Organization's Principles -He Does Not Favor a Third Party.

By Telegraph to The Times. Омана, Jan. 27.—[By the Associated Press.] The eleventh annual meeting of the Farmers' National Alliance convened here this morning. resolution was adopted excluding all persons not members of the Alliance from the sessions. About one hundred and fifty delegates were present. The morning session was consumed in routine business and the reading of President Powers's annual address. Delegate Fullerton of Missouri ofered the following resolution, which was referred to the Committee on Resjust and proper, and ought to be en-

President Powers, in his address, advocated the general organization of the trades unions and Knights of La knew that these certificates had been the trades unions and Knights of Lafilled out and went to work. They never returned.

Superintendent Keighly, who was mine inspector in the Dunbar district when that horror occurred, was at the mine when the explosion prove of benefit without being in prove of benefit without being in effect the laws of the organization for volunteers, and, gathering a few about him, descended the shaft. Before doing so he notified General Superintendent Dinch, and that gentleman ordered all the mine superintendents in the region to the scene. When the volunteers entered the mine, a sight in the region to the scene. When the rounders are the rounders of the rounders in the region to the scene. When the rounders entered the mine, a sight in the region to the scene. When the rounders of the rounders of the rounders of the organization in the organization in the organization in the rounders of the organization in the rounders of the organization in the rounders of the organization in the organ ganizations, as the platform on the party might be formed would soon become obsolete. As a case in point become obsolete. As a case in point he spoke of the two parties which have divided the Government in the last thirty years. He favored independent political action, and believed in men pledging themselves to vote for good men and good measures.

He outlined a plan for action as follows: Let the Alliance discuss and agree upon such measures as it deems expedient to form a basis for political action for this year and next. Place this by correspondence before the other great industrial organizations, and with their concurrence, let a convention be called to compare views and adopt as a national platform a concise, set of principles which can be cordially supported by all. Publish them to the world disseminate them and prevare for supported by all. Publish them to the world, disseminate them and prepare for world, disseminate them and brebars for the great struggle in 1892. Powers thought the subjects on which those principles were founded were included in the following list: Money reform, land reform, transportation reform, ballot reform and the suppression of any vice tolerated by law to the peril any vice tolerated by law to the perilion of our national prosperity. A resolution to send a telegram to Kausas, urging Peffer's election, was lost, after a delegate from Kausas had denounced him as nofisend of the farmers, although the editor of a farm paper.

Mr. Ingalls Will Not Return to the Upper House.

W. A. Peffer Proves the Choice of th Kansas Legislature.

The Alliance Men Remain True-to the Selection of Their Cancus.

History of the Successful Candldate's Career-He Was Among the 49ers-Mr. Ingails's Future Plans.

By Telegraph to The Times.

FOREKA (Kan.,) Jan. 27.-[By the Associated Press.] When the next Congress meets the seat of the Hon. James J. Ingalls will be occupied by William Altred Peffer, of the Farmers' Alliance, who, in the joint session of the Kansas Legislature tomorrow, will he formally declared elected United States Senator. The predictions of the "knowing ones," that the Alliance would be unable to agree upon a candidate, and that failure to agree would disrupt the organization, went wide of

of the mark.

The caucus was harmonious last night, and on each ballot the candidate receiving the lowest vote was dropped from the list, until a choice

dropped from the list, until a choice was unde. Rumors of detection in the vote in the House likewise proved unfounded. The proceedings of both houses were of an orderly character. In the House lifty-three petitions from G. A. R. veterans throughout the State for the rejection of Mr. Ingalls, went over under the rule. When the result of the ballot was announced, the Alliance men went wild and cheered for several minutes.

The ballot for Senator in each House

and cheered for several minutes.

The bailot for Senator in each House was as follows:

House—Peffer 96, Ingalls 23, Blair 5.

Senate—Ingalls 35, Peffer 2, Morrill and Keily each 1.

Senator Ingalls, in an interview this afternoon, said that he had no plans for the future, except that he knows he will remain in Kansas.

William Alfred Peffer was born in Cumberland county, Pennsylvania, in 1831, and is of Dutch parentage. In 1850 he caught the gold fever and went to California where he remained two years. He made considerable maey and returned to Pennsylvania, and soon after removed to Indiana and later to Missouri. He served during the war in the Egnty-third I linois Volunteers. At the close of the war he settled in Clarksville, Tenn., practicing law, and in 1870 moved to Kansas, taking up a claim. At different times he edited various papers, served in the State Senate, and was a delegate to the National Republican Convention in 1880. In that year he moved to Topeka, assuming editorial control of the Kansas Farmer, and afterward bought the paper. He has been engaged in, the publication of that paper ever since. The paper has a wide circulation among Kansas farmers and has much influence over them. He joined the Farmers' Alliance movement a year ago, and in the spring of last year began a bitter and determined warfare against Mr. Ingalls's reëlection. Up to gan a bitter and determined warfare against Mr. Ingalls's reflection. Up to a year ago Peffer was a staunch Re-

publican, when he joined the Farmers' Alliance.

He outlined his policy as Senator to to an Associated Press representative today. He said that he favored the absolute unlimited coinage of silver and the conservative expansion of currency along other lines. He was in favor, he said, of protection to home industries, but believed that the best protection did not always result from high tariff. Protection by tariff, as a general principle, he said, was wrong. High tariff should be called in to aid only individual, struggling industries. He now layored an average ad valorem that of 20 per cent. He was conversed

EALLOTING . LSEWHERE. Moody Losing in South Dakota-Vilas Elected in Wisconsin. PIERRE (S. D.,) Jan. 7.—|By the Associated Press.] Two ballots for Senator were taken without result today. Moody has released the Republican caucus, but will not withdraw from the race. His vote fell today on the last ballot to 39, against 72 yesterday. All sorts of speculation is being in-

dulged in. Madison (Wis.,) Jan. 27 .- Vilas ré-MADISON (WIS.,) Jan. 27.—Vitas received a majority over Spooner today, when both houses of the Legislature voted for United States Senator. SPRINGFIELD (III.,) Jan. 27.—After the thirty-seventh bailot for United States Senator was taken, without result, the joint session adjourned till

noon tonorrow. Will Fight in the Spring. KANSAS CITY, Jan. 27.—James A. Finlay of this city, Indian trader at Pine Ridge Agency, returned home this morning for a brief visit. Finlay reports that when he left the agency Saturday everything was peaceable and quiet, that Gen. Miles said he did not expect further trouble, but the general opinion of the military officers is that the Indians will go on the warpath again in the spring, as not over one hundred of them are disarmed.

Opinions of the Farmers.
Springfield (Mass.,) Jat. 27.—The agricultural papers which, a short time ago, announced the result of the postal-card votes of 110,000 farmers in all parts of the country on Presidential preferences, have compiled the result on the tariff. It shows a considerable majority for the McKiniey Bill; an overwhelming of the demand for Mr. Blaine's scheme of reciprocity and an almost equalty strong protest

The First Shove of Dirt. CHICAGO, Jan. 27.—The first stake was driven, and the first spadeful of earth turned on the lake front today, in connection with the World's Fair. Preparations have begun for the erection of a temporary building to be used by the Thier of construction and his assistants. Some property-owners op-posite the Lake Front Park threaten as injunction.

### HUNG BY ONE MAN.

Lockwood Saved by an Obstinate Juror.

BLAND THE NAME OF THE MAN

ex-Justice Is Innocent, but Simply Refused to Convict.

A hung jury! Eleven for conviction and one for acquittal! This is the result of the trial of ex-City Justice Walter C. Lockwood on a charge of embezzing \$300 from the county of Les Angeles. Certainly this is enough to make the blind goddess open

is enough to make the blind goddess open-her eyes in amszement and surprise. Yesterday morning the jury in this case, resumed their deliberations. During the forencon several ballots were taken. At 2 o'clock in the afternoon Judge Smith called the jury in, and the foreman, John Case, was asked as to to the prespects for an agreement. He informed the Court that the jury stood eleven to one.

was asked as to to the prospects for an agreement. He informed the Court that the jury stood eleven to one.

The Court asked if the jurymen were unable to agree upon a point of law or a fact. The foreman announced that he could not state what was the matter. The juryman who was hanging out had not stated why he was doing so. One of the jurymen stated that the builheaded person who was so theroughly convinced that Lockwood was not guilty had told him that he had no reasons to give why he voted as he did.

The Judge then directed the jury to return to their room and ascertain if they could not agree. They resumed their deliberations, and at 5 o'clock were again called in. The jury stood the same as before, eleven for couviction and one for acquittal. There being no prospect for an agreement the Judge discharged the jury.

The juryman who he searned for himself the unenvisable notority of hanging the jury and thereby causing a mistrial of this case is Andrew F. Bland. The directory states that he is a miner and resides at Brooklyu Heights. Mr. Bland is one of the most remarkable men whom a kind Providence has not overly blessed with a good sense have preceeded him. There is no possible way in which to account for the extraordinary conduct of Bland in holding out and insisting upon a verdict of equittal. It was in vain that his fellow-juryman argued with him. They asked him to give his reasons for voting as he did on every ballot. He had no reasons to give. He admitted that he did not think that Lockwood was innocent. Certainly he was either innocent orguity. If Bland did not think him to be innocent he must think him to be the reverse; yet for twenty-four hours upon every ballot he community and of law, order and decency demand that there be few Blands and pury in this county. The best interests of the community and of law, order and decency demand that there be few Blands in a jury panel.

The result is that Lockwood will have to be tried again upon this charge. He will not escape a second time the punishment it

not escape a second time the punishment it has been shown he so justly merits.

A TERM-TRIAL JURY.

The following term-trial jury was yesterday drawn in the United States District Court:

John William Wallace, M. M. Cobb, Francis M. Kelier, Benjamin F. Day, George M. Skinner, N. M. Entier, Charles N. Ross, Charles H. Forbes, John R. Metcalf, Christian Gananl, George H. Barker, Michael Hopkins, Albert G. Simms, Meredith P. Suyder, Osmer W. Baldwin, Wesley Clark, Robert R. Brown, Charles Brode, Charles G. Compton, Charles A. Coffman, Harris H. Lathrop.

Judge Ross excused the jurymen until 11 o'clock today. Before doing so, however, he addressed them briefly as follows:

"The Court instructs the jurors not to converse with them concerning any matter pending before them, and if they are approached by any one in reference to such matters to report the same to the Court."

RELEASED AND REARRESTED.

proached by any one in reference to such matters to report the same to the Court."

RELEASED AND REARRESTED.

The application of Dennis O'Brien and J. S. Taylor for a writ of prohibition directed against Justice of the Peace P. E. King of Los Angeles township came up for argument in Department Three of the Superior Court yesterday, it will be remembered that O'Brien was arrested on a warrar ant charging him with abduction. In both cases Jessie N. Marshall, who had secured a judgment against Taylor for \$25,000 damages for seduction, was the compitating witness, and the warrants were alleged to have been issued out of Justice King's Court.

O'Brien and Taylor filed an application for a writ of prohibition compelling King to desist from proceeding with the cases. In their petitions they made all sorts of allegations of frand, blackmail and collusion on the part of King and the attorneys of Jessie Marshall. A demurrer was filed to the application. Yesterday it was argued and overruled by Judge Wade. This practically settled the matter.

But immediately the decision overruling the demurrer was given O'Brien and Taylor were restrested on the same charges and upon warrants issued from the same court for P. E. King.

The Regular Semi-monthly Mesting —Officers El-cted.
The Southern California Floral Society held its recular semi-monthly meeting Monday night in the rooms of the Chamber of Commerce, a large number of the leading florists, horticulturists and amsteur growers being present. After the preliminary business of the society had been attended to. Mr. John Franklyn read a very interesting, and timely essay on "Parasitle Planta," which was very suggestive, and treated the subject in an able and practical manner.
The speaker dwelt upon several branches of his topic, and after concluding, the subject was discussed by a goodly portion of the members present.
The officers of the society elected to serve for the ensuing year are as follows: H. Rowland Lee, president; C. E. Brydges, vice-president; Henry W. Kruckenberg, secretary; S. F. Wakelee, recording secretary; James H. Denham, treasurer. Executive committee: Ell Snydger, chairman; J. C. Fomilinson, J. H. Harvey.
The society meets every two weeks on Monday evenings in the rooms of the Chamber of Commerce on Main street. The next meeting will be on Monday evening at 7:39, February 9, and the subject upder discussion will be the Aquatics, with an essay by E. D. Sturtev int, who has cultivated these plants for years in New Jersey, and more recently in Southern California. At the following meeting (February 29) H. Rowland Lee will speak on public parks and arboretum; that portion of the public interested in horticulture is cordially invited to be present.

DELINQUANT TAX LIST.

The Contract Yesterday Awarded to THE TIMES was yesterday awarded the contract for printing the delinquent county tax list. All during the morning Tax Celcontract for printing the definquent county tax ist. All during the morning Tax Collector Whitney was greatly annoyed and harrassed by the Journal people, besides a number of malicious outsiders, who wanted to instruct him in his duties, but after consultation with his bondamen, Mr. Whitney notified The Times at 1:05 o'cook that he was ready to award the contract to this paper at \$1 per legal square of \$240 cms. A new bond for \$240,000 was at once executed, the contract drawn up and signed, and at o'clook the whole matter was settled, and at o'clook the whole matter was settled, and twenty men in The Times composing room were at work.

After all the clamor that has been raised about this matter, it may be a matter of interest to the people to know that even had the bid of the Journal been accepted, the cost to the taxpayers would have been greater than it is under the present arrangement. The bid of the Journal was 75 cents per square for the first insertion and 12 cents for each subsequent insertion and 12 cents for each subsequent insertion and 5 cents additional, as there are are to be four insertions. This would make a total of \$1.11 per inch as against 11 for The Times.

as of infinite importance to our national well-being, and as questions which we dare not and cannot ignore. What he terms Christian Socialism his hero thus defines: "Christian Socialism is merely an extension of Curistian individualism, that the world is made better not merely by collective effort, but by the stimulation of individual endeavor. One of the difficult problems of our time, as it seems to me, is to find some practical substitute for the old relations of neighborship. It did not mean more vicinity; it was a willingness to aid—arising not merely from kindness, but from a recognized mutuality of relation. Today there is no neighborhood tion. Today there is no neighborhood nor neighborship. There may be friends, cromes, partners, but there are

nor neighbouship. There may be friends, eromes, partners, but there are no neighbors.

"It is well to organize 'charity' to relieve destitution, but it is a thousand times better to practice that charity—kindliness' is the true rendering—Love thy neighbor as thyself—which tends to prevent destitution. We have reversed the Master's lesson, and given more prominence to the divine than to the human element of Christianity. Caristianization has been its chief aim; the betterment of human conditions only an incident."

Very dettly, in all its varied bearings, does the author deal with the great question of human relationship and human obligations, and the vexed problem of the relations between labor and account of the present and the process of the present and the process.

The name of the author of this volume is not given, but the reader's interest is at once enlisted, so v. vidly are he pen-pictures drawn, and so like creatures of life are the characters introduced. The attention is captured at once with the opening paragraph:

"A white, low-storied house, some straggling oak trees grouped about it, stands on the left bank of the river Vistula, somewhere mid-way between Warsaw and the German frontier. It is the 9th of April, 1887, and evening. The master of the house, mounted on a stout iron-gray cob, is slowly returning homewards from the village that hies a little ways off. The name of the white house—likewise that of the adjoining village—is Stara-nola, and its owner is called Felieyan Starawolski."

The reader is taken into his house and is introduced to his family. He is given also many gumpses of Russian society and Russian character. He follows a young soldier—a spy, through various tortifications and scenes of

society and Russian character. He collows a young soldier—a spy, through various iortifications and scenes of danger. He is presented also as a lover and later as a prisoner, and the glimpses of the horrors of Siberian exile are afforded, and the story and the climax of the "Secret Mission" are well painted. Boundless is the extent of country that the author holds up before us, and thrillingly sublime are some of the word-pictures that he paints. Take the following for instance: "It is in the Alaskan range that nature assumes the heroe, that the last battle of the mountains seems to have been fought. The din of it has as yet hardly passed away; the great peaks of the range stand there proudly triumphant, but still angry; grumbling, smoking and spitting fire, they gaze upon their fallen foes of the archipelago, giants like themselves, though now submerged, sunken in the sea, if not, indeed, hurled thence by their victorious rivals."

Of the wealth already invested in railroads, the author says:

"It may be stated approximately that "It may be stated approximately that the entire capital invested in the railroads of the world is \$25,000,000,000, of which more than one-third was furnished by the United States. . .' And now in view of this enormous outlay and considering the tremendous results that would surely follow, of what significance would be the investment of \$200,000,000 or \$300,000,000 on an enterprise that would band together all the

\$200,000,000 or \$300,000,000 on an enterprise that would band together all the railroad systems on the face of the earth? Accepting even the latter estimate of the cost, it would represent only a little more than one per cent. of that which has been already expended on the railroads of the world, and little more than three per cent. of the total expenditure in the United States alone."

The author's picture of the resulting "new civilization," is a glowing one. With the completion of this cosmopolitan system of railroads will rise the day star of universal civilization and progress. The universal brotherhood of man will be recognized, and wealth will be largely increased.

"Night wanes, the vapors round the moun-tain cur ed, Burst into morn, and light awakes the world.

THE Chicagoans stop at nothing. It is now proposed to infice the Pope to preach a sermon at the World's

THE Committee on Federal relations has reported favorably to the State Senate a joint resolution recommending the election of United States Sen-

ators by vote of the people. A LARGE negro exodus is setting in from Alabama to Oklahoma. Many white people are in desperate straits new territory, and it is not probable that the negroes could do

JUDGING from the fact that a threecolumn editorial on the subject appears in the San Diegan, we judge that the question of Sunday closing of saloons is considerably agitating the good people of San Diego.

THE grocers of Los Angeles showed to attend the meeting called for yesterday to arrange for the reception of the visiting grocers from the East. It will be an excellent chance to vertise our resources and should be

ANOTHER terrible mining disaster has occurred in Pennsylvania. With all our boasted progress, mining and railroad disasters seem to grow more frequent rather than less so. There is certainly room for legislative action in this direction, but then, mine and railway owners are wealthy men, and the average legislature is averse to deal hardly with the rich.

A BILL was introduced yesterday in the United States Senate to subsidize a Pacific Cable company, to lay cables from San Francisco to Japan, Austraha and Samoa. One would suppose such a venture ought to pay without subsidy. At present, messages from San Francisco to Japan have to go by way of New. York, London, France, Italy, Egypt, Persia, India and China.

THE Charter Amendment Committee reported yesterday to the City Council in favor of such action by the Legislature as may be necessary to enable the city of Los Angeles and such portions of the county as may desire, to consolidate as the city and county of Los Angeles. In case the Pomona scheme should succeed, there will be a strong sentiment here in favor of such a movement. Meantime, let us first try to defeat county division.

THE State Senate yesterday passed the bill extending the session from sixty to one hundred days. We presume the Assembly will do the same. As we have already stated, this is simply a move to make the session last until the Legislature can have the appointment of Hearst's successor. Stanford has ordered it, and it must be Why not make the bill read 'until three days after the decease of United States Senator Hearst? Would it be too inquisitive to ask how much the legislators expect to receive from the millionaire Senator of Pale Aito for electing his friend Felton? must be worth a good round sum for them to stay so long away from their occupations-that is, those who have

QUEER COUNSEL.

The Herald is backing into a very equivocal position on this question at issue between the orange producers and the buyers. Our contemporary is a very staunch friend of the growers, do anything in the way of self pro-tection; it would like to see "a great and successful Orange-growers' Asso ciation"-but not now. Some other time. "The present crop, once out of the way," says the funny friend of the producer, "we can very well concede that an Orange-growers' As would be a very admirable idea.'

There is just the rub. Suppose the present crop retuses to get out of the way. Are the orange-growers to re-main with folded hands and let their fruit spoil while they are awaiting a more favorable opportunity to organ

The Herald admits that the season is already far advanced and very few contracts have been made. However the argument is: Don't worry; throv yourself on the good graces of the buy ers. They may be backward about coming forward, but, never mind. ers. They may

"But," says the orange man, "sup pose the buyers don't buy?"

"No matter; sell to the buyers any how.

The fact is there is nothing to re strain the buyers from getting down to business and securing every box of oranges in Southern California. But they must show a willingness to act and must pay fair prices.

A great share of this talk about the markets of the East being ruined by extra importations from abroad with an increased tariff, and by the abundaut second crop of Florida, probably a myth, is mere stuff and nonsense, a the Herald admits. These stories so industriously set afloat are only a part of the general scheme to "bear" the

orange market in California. The orange-growers probably con vinced themselves that they were right before they began to go ahead in this matter, and consequently, to quote Davy Crockett's maxim to them now

As to the buyers, they will either have to fish or cut bait, for the growers mean business.

#### A SOLEMN FARCE.

Another striking evidence of the absurd inefficiency of the jury system was furnished yesterday. The jury in the case of W. C. Lockwood, charged with embezzlement, after being out 24 hours, was discharged, having failed to agree, that is to say, one man refused to agree with the other eleven, whose minds were made up atter the first ballot, as, indeed, they could scarcely fail to be, in view of the damning

character of the evidence.

This juror, Andrew F. Bland by ame, could give no reason for his refusal to vote for conviction. He is even said to have admitted that he did not believe in Lockwood's innocence. No wonder that the District Attorney will ask to have this phenomenal juror excused from further duty on the present panel.

And so the same weary old farce goes on, and justice is mocked, while the taxpayers pay for the fun. Is it not high time that this medieval system should at least be modified? Suppose nine votes for conviction or acquittal were sufficient, does any one believe that injustice would be done to crim-

In the same county, on the same lay, a man without financial or political "pull" was tried by a jury for going into the room of an acquaintance, while drunk, and taking there rom articles worth about five dollars. It only took the jury ten minutes to find him guilty of burglary in the first

The chances are about twenty to one which the devil laughs and the judiious grieve as red-handed crim inals walk off unscathed to further prey on the community.

### THE ELECTIONS BILL

New Jersey has joined the list of States which propose to boycott the World's Fair if the Elections Bill beomes a law. This is a silly and puerile stand for a State to take. It reminds one of a little boy who won't play if he can't have the game just his own way. Let each tub stand on its own bottom. The "Force Bill" and the World's Fair have no more to do with each other than has Koch's lymph

Meantime it looks as if the bill in question had received its quietas for the present. Little regret will be felt on this coast at the failure of the bill to pass. It is generally believed here that the South is entering a new era of industrial and educational development, and there is a strong feeling in favor of letting her have a chance to see what she can and will do for herself during the next few years, rather than violently reopen old sores. sentiment has been strengthened by the noticeable change in tone of the more conservative southern journals during the past year. Many of them have denounced outrages on negroes almost as vehemently as the most stalwart northern papers. Among none is the desire to give the Southerners every possible show to work out their own salvation more decidedly expressed than in the ranks of those who hit them some hard licks during the war. This feeling does not, however, in the least neutralize the firm conviction that justice must be done to the 'colored' citizen of the The difference of opinion is South. only as to the best way of securing him his rights, many believing that to attempt to put in force the Elections Bill at present would do the negro more harm than good.

whom can neither read nor write, and are deficient is manners, morals, cleanelection in which all the voters of the county take part. A great majority of the people of Los Angeles county are against division, and it is most unjust that their wishes should be overridden by a small minority.

COUNTY PRINTING.

COUNTY PRINTING.

It is time that there should be a re-

orm in the manner of letting the public printing of counties, so as to avoid the unseemly scrambling and cutting of rates by irresponsible or ephemera publications, or publications of limited circulation. It would be a good idea for the Legislature to fix the price of county printing, the price to graded according to the importance of the county, which would naturally represent, more or less accurately, the importance of the journals published in that county. It is manifestly unreasonable and unjust, for instance, to pay a paper published in Alpine county, with a circulation of perhaps 250 copies, the same rate for county printing as is paid a paper in Los Angeles or Alameda counties, with a circulation of from 7000 to 10,000 copies. The dif-ference in price paid for public printing should correspond with the differ ence in rates charged for commercial advertisements, which, in turn, should be based upon circulation. The rate having been fixed by the Legislature, it would only be left for the proper county official to name the paper publish the announcements. should, in justice to all, be the paper of greatest general circulation pub lished within the limits of the county, class publications being barred.

The present method of giving the county printing is fertile in bad results. Many small papers, with no other particular reason for existence, are started for the express purpose of living on what they hope to receive from the county. Their circulation is not taken into account, and thus both the public and the legitimate journals are injured.

UNDESIRABLE IMMIGRATION. Too Many New Arrivals Without Occupation. Cakland Times.

In some recent figures collected by Hon. Henry Cabot Lodge, the persons who lauded in this country between 1873 and 1886 are classified as follows: Professional....

Miscellaneous 2,052,249
Occupations not stated 128,781
Without occupations 2,596,185
So it appears that for many years So it appears that for many years nearly one-half of our immigrants had no occupations, no training. For the same period it will be seen that the professional and skilled labor amounted to only 11.49 per cent. of the whole.

We cannot stand this sort of thing. It is not safe to make this country the dumping ground of all the incorporation.

The chances are about twenty to one dumping ground of all the incompeting favor of there being at least one foot or knave on a jury, in consequence of the nations of the earth. The immi-

the nations of the earth. The immigrants coming to our shores must be capable of learning a living, or they should stay at home.

It is time to have this matter of immigration thoroughly supervised and regulated by systematic rules. Our laboring men in the course of another generation will be growed into the generation will be crowded into the generation will be crowded into the mire of poverty by these millions of newcomers whose pauperized condition forces them to work for starvation wages. Unless we reform this business we must expect to see pauperism and crime increase, and tramps and robbers marching from one end of the land to the other.

Why not profit by the example of Brazil? The new republic encourages immigration, but it requires the heads of families to be practical farmers or skilled mechanics. In other words the Brazily of families to be practical farmers or skilled mechanics. In other words the government is determined that its new settlers shall be self-supporting. This is on the right line and it is the policy for the United States to adopt. We cannot afford to be simply an asylum for all the oppressed and unfortunate people in the world. Such charity may be meanifient, but it is another the probe magnificent, but it is not busines

### Henry George's Malady.

(Oakland Times.)
The retirement of Henry George, the great single-tax man and the brilliant author of "Progress and Poverty," is due to a rare and singular mental disdue to a rare and singular mental dis-ease. His complaint is known by the name of "aphasia," and the term de-notes a loss of the ability to express ideas in speech and sometimes in writ ing. The patient loses his memory of substantives and names and misapplies words in a manner which renders his language unintelligible. Noticing these peculiarities in himself, Mr. George consulted a physician, who informed him that he was suffering from applications as the result of over-mental exaphasia as the result of over-mental ex-ertion. As nothing but a total suspen-sion of work will effect a cure, the brilliant author is completely with-drawn from the social and political drawn from the social and political causes with which his name is so intimately identified. Single-taxers and thousands of others for whom his ideas have had a powerful attraction will hope for his speedy recovery.

[A severe criticism.—ED.] SIGHING FOR LOS ANGELES.

A Wind-swept Arizonian Looking

EUREKA SPRINGS, (near Wilcox Ariz.,) Jan. 13.-|Correspondence of THE TIMES.] It requires a pilgrimage to Arizona to appreciate a winter in Los Angeles. When I think of the gardens and lawns, and almost uninterrupted wilderness of flowers in full bloom surrounding your fair city, especially on Washington, Pico and other streets in that neighborhood, and compare the same to our cold, windy climate here at present, I long to be once more in the City of the Angels, and inhale the peculiar quality and profusion of bloom of these Southern California shrubs. Here we see no flowers at all except cactus; but with you the great leaves only rurnish a slender framework for the richest and brightest blossoms. Against so many gleaming white walls as a background, one sees arches and festoons of crimson, pink, white and yellow roses bound together with only a slender thread of green, that is barely traceable and almost terrupted wilderness of flowers in full that is barely traceable and almost lost in that wealth of dainty blossoms with which it is laden. Your lawns are literally spangled with violets, roses, chrysanthemums, dahlies, paneies and flowers of almost every variety, the fresh verdure of the grass framing in and filling the background of a floral picture of surprising loveliframing in and filling the background of a floral picture of surprising loveliness. Climbing roses and jasmines wind their perfume-breathing chains over the cold gray of dead walls and light up weather-stained gables. Sweet odors are borne on every errant breeze. A girl in her first season, with a faint fragrance of bread and butter hanging around her, is pretty dull company. She is capital in a waltz, and will do well enough for an after-supper firtation. But people who have once entertained her for an evening are not inclined to repeat the experiment, unless they harbor matrimonial designs. less they harbor matrimonial designs But after the girl has been under fire in two, or three, or half a dozen campaigns; after she has crossed swords with bright men, and learned something of the times in which she lives; after she has read and digested the books of the day, and learned what her elders are able to teach her; then, indeed, she are able to teach her; then, indeed, she becomes a formidable personage, and people who are not willing to become her slaves had better keep out of the range of her guns. It is from 23 to 26 that the sex is most dangerous, and, as statistics show, most marriages take place between those years.

Mr. Hoar Objects to the Form of Sen ator Stanford's Credentiais.

Yesterday's Testimony Before the Silver Pool Investigating Committee-Senator Hearst Improving.

By Telegraph to The Times.

WASHINGTON, Jan. 27.—¡By the Associated Press.] The brief of Attorney-General Miller in reply to the application of the Canadian government for a writ of prohibition in the case of P. Sayward, libeled for catching seals in Bering sea, was filed with the Supreme Court today. The petition of the United States Government is thus stated briefly: The Government of the United States opposes the filing of a petition for a writ of prohibition to the District Court of Alaska in this case, for the following reasons: First-That the Supreme Court has no power in any case to issue a writ of prohibition to the Sitka court, because it is not a district court of the United States, being merely a Territorial court. He argued further that the point which the petitioners seek to present cannot be raised on the record of the admirality proceedings on file with the Supreme Court, because the face of these-proceedings show jurisdiction to be in the Alaska court, and after sentence in such causes is heard and argued a prohibition "will not issue." In concluding his argument he held that conceding all facts averred in the petition, the question of the jurisdiction to the Alaska court depends upon the extent of the dominion of the United States in Bering Sea. This, he maintained, is a political question to be decided by the political department of the Government, the executive and Congress, both of which have decided against the petitloner's contention, and this decision, he held, must be conclusive upon the judiciary. No consideration, whatever the Atomatical distance of the commercial Gazette was the person from whom he received the information mentioned in yesterday's examination. petition, the question of the jurisdiction of the Alaska court depends upon the extent of the dominion of the United States in Bering Sea. This, he maintained, is a political question to be decided by the political department of the Government, the executive and Congress, both of which have decided against the petitioner's contention, and this decision, he held, must be conclusive upon the judiciary. No consideration, whatever the Attorney General said, had been given in his answer to the question of international law, which is now, and has been for the past six years, the subject of diplomatic correspondence between Great Britain and the United States with reference to the right of this country to assert territorial jurisdiction in Bering Sea to the extent of protecting its scal fisheries beyond the three-mile limit ordinarily fixed as the boundary of the territorial jurisdiction of countries bordering on the sea, Such a question, the Attorney-General respectfully insisted, is not within the cognizance of the Supreme Court, and he therefore did not discuss it.

Calderon, Carlisie and Choate argued in opposition to the Attorney-General's argument and the court adjourned before their arguments were finished.

Absolute liberty will henceforth be the principles on which the conclaves work. The personage in question said that it is difficult to determine the probabilities of the next conclave. Various candidates have been mentioned, but none decided upon. Under the extraordinary condition of a conclave held abroad and in the midst of European complications, it is to be presumed that the c rdinals would choose a neutral foreign Pope, for example, Manning of England, Gibbons of America, or Malinci.

## Steady Progress

Has characterized Hood's Sarsaparilla ever since it was placed before the public. Wherever in troduced, its sales have grown from year to year until now it is the most popular and most successful medicine offered. Any druggist will confirm this statement. The secret of this success lies in the fact that Hood's Sarsaparilla is a medicine of merit. It does actually accomplish all that is claimed for it, and when given a fair trial, is reasonably extrain to be of benefit. sonably certain to be of benefit.

Is Justice Rose to Be Censured?

THE FACTS IN THE CASE

Why Two Boys Were Sent to San Francisco-Locals on Various Topics-Personals and

It seems that Justice H. H. Rose has been unjustly censured for sending two boys, who were convicted of theft, to the Boys' and Girls' Aid Society of San Fra cisco.

The matter was investigated yesterday and here are the plain, un biased, unenlarged-upon facts as obtained from the court docket and the officers connected with the case.

January 22 complaint was filed against Fred Meeks and Ed Snyder for stealing figs from B. Den-nis. Both boys pleaded guilty and sentence was suspended on good be-havior. The following day S. Sea-mens and R. Hestin had a complaint filed against them for breaking into G. Chappel's fruit stand and stealing candy and cigars. Both boys pleaded guitty. Sentence was suspended us to Hastin and Seamens was sentenced to candy and cigars. Both boys pleaded guifty. Sentence was suspended as to Hestin and Seamens was sentenced to spend sixty days at the Boys and Girls Aid Society in San Francisco. This, it is stated on authority, was done at the request of the parents, who have found the boy incorrigible and preferred he be sent to this institution, which is purely a charitable organization, rather than pay a fine or have him sent to the County Jail. The boy was taken to his parents and rigged out in a new suit prior to his departure.

his parents and rigged out in a new suit prior to his departure.

January 24 R. Hestin and Fred Weeks again appeared before the bar of justice, this time for stealing chickform Mr. Dexter. Both plead guilty, Weeks was fined \$10, which had not been paid up to yesterday evening. Hestin was sent to the San Francisco. Mr. and Mrs. Carey and Miss Marble, former residents of this place, and journey with them East by way of the listhmus.

ing of the visiting officers and the noncommissioned officers of the local organization was held, in which Lieut. Steer read an interesting and instrucsteer read an interesting and instruc-tive paper on "Formation for attack under the new tactics, controlled fire, and estimating distances by sight." The new methods employedful the pres-ent system of tactics indicate that open fighting will be the style of future war-fare. A battle will be much in the order of an immense skirmish. It was predicted that much more importance order of an immense skirmish. It was predicted that much more importance will hereafter attach to the positions of sergeants and corporals. An interesting part of the paper was that touching upon the range of vision as an important essential in modern methods of warfare.

The matter of the two companies igning in a practice match was favor-

The matter of the two companies joining in a practice march was favorably discussed and it is likely that such an event will take place a week from next Sunday, although the details have not yet been determined upon. The object of the march will be to give the me practice in field tactics, which will include a sham battle.

A new tennis player has appeared in town who is likely to cause some surprises. A. S. Runyon, who arrived on the last Raymond excursion and who is now the guest of Mr. and Mrs. Graves. Some who witnessed his first game on the Pasadena court on klonday think that he would prove a strong competitor to Robert Carter, and that a match between these players would prove decidedly interesting. Some of his strokes are difficult and gracefully executed, as well as effective.

been paid up to yesterday evening. Hestin was sent to the San Francisco institution, also with the consent of the parents. The boy, it is said, after committing the thefts, left home for a week traveling through the southern part of the State. Upon his return the Marshall was intormed of his whereabouts by the boy's father.

On Monday Fred Meeks, M. Salcedd and W. Turner were up for stealing whips from carriages. Both acknowledged their, guilt, but sentence was deferred.

These are the facts in the case. It does not look as if justice had gone far astray. The statement to the effect that at the end of sixty days the boys will be cast adrift in San Francisco is ill advised. When they have served their sentence the lads will be safely returned to their homes in Pasadena.

ADDRESS TO THE CREDITORS

A Proposition to Sell Out to a New Company and Make the Road Standard Gauge.

So much has been said during the past week about the change in the management of the San Gabriel Rapid Fransit, and the improvements in contemplation, and as the gentlemen interested have declared so, positively that the reporters did not know what they were writing about, it may not be out of place to give to the public a copy of the document that has been drawn up for the stockholders to sign. It reads as follows:

"We, the undersig ed indersers of that certain promissory note, dated the—

Moures, New York: Augustus Mudge, Boston: Carrie E. Nutter, Rochester; C. R. Norries, Allen Owen, Chneimati; C. R. Strone, I. Strone, Allen Owen, Chneimati; Allen Owen,

"We, the undersig ed indersers of that certain promissory note, dated the ——day of ——, 18—, for the sum of ——dollars, executed by the San Gabriel Valley Ripid Transit Railway and payable to ——, 1801, and that the holder of said note may extend the time of the payment thereof for one year from the ——day of ———, 1801, and may also surrender the bonds of the said San Gabriel Valley Ripid Transit Railway held by said payee as contateral security for the payment of said promissory note, and take in lieu thereof —— of the bonds issued or to be by the Los Angeles and Eastern Railway Company. Such extension of time and the surrender or the bonds neld as collateral security for the payment thereof shall not affect or in any manner impair our liability as incorsers on said note."

In connection with this decument, the following address to the creditors of the road has been sent out:

To the creditors of the San Gabriel Valley Rapid Transit Railway, realizing the necessity of changing their railway from a narrow gauge to one of a standard gauge in order to obtain the proportion of business justiy due their company, but which it cannot command on account of its gauge, have decided that the best and most reasonable method of accempnishing this purpose with method of accompashing this purpose will be to self their road to a new corporation, the Los Angeles and Eastern Railway Com-

Daily.

The Los Angeles and Eastern Railway Company with at once provide sufficient money to change the foad from n trow to standard gauge; to at once complete the construction of the branch line into the city of Pasadena; to construct a telegraph line and to equip the property with sufficient standard gauge rodling stock to meet all the demands of the increase of business.

On the completion of the work, the Los Angeles and Eastern Railway Company with make a bond issue secured by mortgage or deed of trust on the property at the rate of \$25,000 per mine, feeling confident that the property with not only beample security for this damont, but will also easily earn its interest.

The mortgage on the present narrow gauge property evers the line from the The Los Angeles and Eastern Railway

its interest.

The mortgage on the present narrow gauge property covers the line from the city of Los Angeles to the city of Moorovia only, a distance of sixteen miles, and is for the sum of \$250,000.

The mortgage to be executed by the Los Angeles and Eastern Railroad Company will be, as before stated, at the rate of 220,000 per mile on twenty and one half miles of standard-gauge road, and it is proposed to use the new issue of bonds as follows:

— bonds of the Los Angeles and Eastern Railway Company to be set aside to be exchanged for 217 bonds of the San Gabriel Valley Rajid Transit Railway now held by different parties as collateral security for loans made that company.

— bonds of Los Angeles and Eastern Railway Company to be used to secure the unsecured creditors of the San Gabriel Valley Rapid Transit Railway.

— bonds of the Los Angeles and Eastern Railway Company to be exchanged for twenty-seven bonds of the San Gabriel Valley Rapid Transit Railway, which have been sold; and

— bonds of the Los Angeles and Eastern Railway Company to be used as collateral security for money advanced to make the necessary change of gauge and capit the road as before stated.

In the carrying out the plans of the Los Angeles and Eastern Railway Company to be the set as collateral security for money advanced to make the necessary change of gauge and capit the road as before stated.

In the carrying out the plans of the Los Angeles and Eastern Railway Company, it is confidently believed that the value of the property will be more than doubled by the change and the building of the branch ine into the city of Pasadena, over what it now is as a barrow gauge road, and in view of the fact of the expenditures for rebuilding the present line into Pas dena not now covered by the present line into Pas dena not now covered by the present inte into Pas dena not now covered by the present inte into Pas dena not now covered by the present into the city of Pasadena, over what it now is as a barrow gauge road, and in view of the present line lato Pas dena not now covered by the present mortgage and bondissue of the San Gaoriel Valley Rapid Transit Kailway and the luny equipping of the line as a broad gauge, the value of the bonds of Los Angeles and Eastern Railway Company offered in exchange as collateral is substantiaty the same.

The Los Angeles and Eastern Railway The Los Angeles and Eastern Railway Company proposes to carry out the pian as above outlined, on the condition that the loans made the San Gabriel Vailey Rapid Transit Railway are extended for one year, and the exchange of collateral securities is effected. ### AGRICULTURAL NOTES.

The last number of the Escondido Times gives an example of what farmers can do in that section of San Dego county. It says that a notice-able case of what a hustler can do is able case of what a hustler can do is that of William Myers, who lives near San Marcos. With his two sons he cultivated the past year less than one hundred and thirty acres, and sold for cash from it as follows: Corn, 8800; barley, \$875; hay, \$370; potatoes, \$70; wheat, \$164; total, \$22.79. The land was rented from the San Marcos Land Company, and at the close of the season he purchased more land with his profits.

The Pemotropic of Azusa says that The Pomotropic of Azusa says that Messrs. Vosburg and MacNiel are making preparations to begin planting 450 acres of orange orchard, all in a solid body, at that place, and have the trees on hand now to cover 100 acres. This immense grove will cover about all the land from Azusa to Gladstone, and from the Center schoolhouse to the all the land from Azusa to Gladstone, and from the Center schoolbouse to the old cemetery. It is well suited for citrus culture. When this work is finished, in the spring of 1892, it will make one of the largest and most prolific orange plantations in the world, as this, with what the Azusa Land and Water Company are planting, will embrace over five hundred acres in one body.

in one body. There are several parties figuring on introducing here colonies of German and other people accustomed to grow sugar beets. There is room for thousands more tillers of the soil, and there is no tiliage that will pay better than growing orchards and beets together. Beet-growing has made every community prosperous that has tried it. Beets are like other crops—the better the tiliage the targer and better the crops. The every best factory built to the tillage the targer and better the crops. The very best factory built t date is now building right here, so that there will never be any danger of losing a pound of beets for want of market.— [Chino Champion.
